

## PRODUCT INFORMATION

**YPD Medium, Powder**

**Art.-Nr. 48507**

### Product description:

**General** A nutritious general growth medium for the propagation of yeast<sup>1</sup> in molecular biology.

<b>Composition</b>	<b>Component:</b>	<b>Concentration:</b>
	Tryptone	20 g/l
	Hefe extract	10 g/l
	Dextrose	20 g/l

**Storage** Recommended storage temperature of powder is +15 °C – +30 °C. Keep container tightly closed, because powder is very hygroscopic.

**Solution procedure** To prepare 1 l medium:

1. Suspend 50 g powder medium in 1 liter dest. water while stirring.
2. Autoclave medium for 15 min. at 121 °C.
